MALVIK Y. BHAVSAR

Contact No: +91 8460587599 | Email: malvik18@gmail.com | Website: malvikbhavsar.com

OBJECTIVE

To design and develop technology systems and subsystems that solve critical problems faced in day-to-day life.

PROFILE SUMMARY

- BE (Computer Engineering) with total 8+ years of extensive experience with ASP.Net, C#, MVC, SQL Server, MySQL, Entity framework, jQuery, JavaScript, AJAX, HTML, Google chart and RDLC report.
- Good Knowledge of Object-Oriented Programming Language, database.
- Good Knowledge of SDLC.
- Good Knowledge of JavaScript, jQuery, SOAP, JSON, AJAX, XML, LINQ, WCF Service, Web Service, WebAPI.
- Worked extensively on ASP.Net and SQL Server
- Good Knowledge of Google developer console API, Third party authentication
- Good Knowledge of Payment gateway Integration
- Knowledge of PhoneGap for cross platform application development
- Comfortable to work in an existing team or as an individual.
- Self-starter and seasoned developer who can adopt the technology quickly with minimum learning curve.

EDUCATION

Bachelor of Engineering in Computer Engineering (August 2010 - July 2014)

Government Engineering College, Gandhinagar

Gujarat Technological University, CGPA: 7.45/10.00

TECHNICAL SKILLS

Languages

- C#, Web Service, WCF, Web API
- HTML, Java Script, AJAX, jQuery

Software and Technologies

Development Tools:	Microsoft Visual Studio 2015, 2012, 2010
Technology:	C#/ASP.NET, JavaScript, jQuery, ASP.NET, MVC, WCF, Angular
Architecture:	Client server Architecture, N tire Architecture, Service oriented Architecture
Database:	MS SQL Server, MySQL
Web Server:	IIS 8.0/IIS 7.X/IIS 6.0
OS Platform:	Windows OS
.Net Framework:	Framework 4.5, 4.0, 3.5
Version Control Tools:	GIT, SVN, TFS
Others:	Adobe Photoshop, SEO, PhoneGap, WordPress

EMPLOYER

- Height8 Technologies Pvt. Ltd as Product Development Manager from July,2017 – till date
- Working for WorldWideScan from October, 2016 – June, 2017
- Verve Systems Pvt. Ltd as software engineer from July,2014 - September,2016

ACHIVEMENTS

- One of the January 2015 Month Winner in C# Corner - A Social Community of Developers and Programmers.
- Completed an online examination for course 'Web Applications Development using Visual C#' on Feb 17, 2015.
- Received best project 2015-2016 award for 'Membership portal' in Verve Systems Pvt. Ltd.

PROJECTS

Project Name: **Service, Subscriber & Revenue Management System**
Programming & tools used: C#.NET, ASP.NET, .NET Framework 4, MS-SQL Server, Web API, VS-2017
Work Duration: July-2017 to Present
Description: H8 develops and implement telecom OSS/BSS solutions to support the telecom service providers across the globe. They require integrated telecom OSS BSS platforms where order and fulfilment involves multiple network resources.

Project Name: **Multiuser B2B and B2C Prestashop Web Application** (Academic project)
Programming & tools used: C#.NET, ASP.NET, .NET Framework 4, MS-SQL Server, VS-2010
Work Duration: March-2013 to December-2013
Description: This is a project with the objective to develop a basic website where a consumer is provided with a shopping cart application and also to know about the technologies used to develop such an application.

Project Name: **Bill Tracking Application**
Programming & tools used: C#.NET, ASP.NET, .NET Framework 4, MS-SQL Server, VS-2010
Work Duration: January-2014 to April-2014
Description: Developed billing software for Transportation Company for invoice analysis and bill processing. In this application, user will enter bill details and according to that invoice and challan will be generated.

Project Name: **Estimator Application**
Programming & tools used: C#.NET, ASP.NET, .NET Framework 4, MS-SQL Server, VS-2010
Work Duration: April-2014 to May-2014
Description: Developed estimating software for granite factory.

Project Name: **Document Repository System for Legal system** (Verve Systems Pvt. Ltd)
Programming & tools used: C#.NET, ASP.NET, .NET Framework 4.5, WCF Service, MS-SQL Server 2012, VS-2012
Work Duration: August-2014 to December-2014
Description: This system is targeted to manage all consultancies and its related documents online on client's intranet. In this system you can also track status of each consultancy and work sheet related to it. You can also manage client, keyword and keyword category. The most powerful feature of this system is search. You can search in document content which are associated with the consultancy. This application is developed in two language English and Arabic.

Project Name: **Hipdash** (Verve Systems Pvt. Ltd)
Programming & tools used: C#.NET, ASP.NET, MVC, .NET Framework 4.5, MS-SQL Server 2012, VS-2012
Work Duration: January -2015 to February - 2015
Description: Create windows application for collecting PMS data using web scraping and insert to Hipdash database.

Project Name: **Membership Portal** (Verve Systems Pvt. Ltd)
Programming & tools used: C#.NET, ASP.NET, .NET Framework 4, Umbraco CMS, MySQL, VS-2012
Work Duration: March-2015 to September -2016
Description: This project is all about rotary clubs Sweden. Using this system manage more than 500 club website, member details, project, article, events, attendance etc. Entire application is role and permission based. This application is developed in three language English, Swedish and Latvian. Modifying the existing design and developing new modules, to provide the functionality required by the client.

Project Name: **WedBeauty**
Programming & tools used: C#.NET, ASP.NET, MVC, .NET Framework 4.5, MS-SQL Server 2012, VS-2015
Work Duration: September -2015 to November -2015
Description: WedBeauty is provide services to make your wedding look more elegant, adorable and ravishing by sharing your details right from the love at first sight with your partner to the biggest day of life. Using this create more than 30 wedding invitation website.

Project Name: **WorldWideScan**
Programming & tools used: C#.NET, ASP.NET, MVC, .NET Framework 4.5, MS-SQL Server 2012, VS-2015
Work Duration: October -2016 to till date
Description: WorldWideScan (WWS) is the first in class leading community of online IT enterprise

companies and products reviewers. The community helps clients find the right company and product for their needs. WWS' objective is to make the web a better place for IT users by allowing them to share their feedback and view what other individuals think.

Project Name:	**iFollowTech**
Programming & tools used:	WordPress, MySQL
Work Duration:	May - 2017
Description:	iFollowTech is a leading technology content publishing blog keeping thousands of their followers up to speed with breaking tech updates and reviews.

Project Name:	**SSD Selection Tool**
Programming & tools used:	C#.NET, ASP.NET, MVC, .NET Framework 4.5, MS-SQL Server 2012, VS-2015
Work Duration:	May -2017
Description:	This SSD Selection Tool allows you to estimate and compare the expected life of various solid state drives based on endurance data published by respective vendors.

PERSONAL DETAILS

Date of Birth:	18th August, 1993
Nationality:	Indian
Address:	B-1/256 Madhuvrund Society, Ghatlodiya, Ahmedabad – 380061, Gujarat, India
Languages known:	Gujarati, Hindi, English
